Southeastern Regional Voc Tech High School

LIBRARY

To The Graduating Class of 2008

Luis G. Lopes
Superintendent

To the Class of 2008: As a graduate of Southeastern you possess the skills necessary to be successful in the future. The 21st century will present many challenges to you as a working citizen in our new global economy. I am confident – not only in your current skills – but also in your commitment to lifelong learning. Congratulations and welcome to the Southeastern Alumni family.

David Wheeler
Principal

Congratulations class of 2008! You should be proud of all that you have accomplished. The vocational and academic preparation you have received at Southeastern will last you a lifetime, as will your memories of high school friends and activities. But this is only the beginning. Now it's time to start the second phase of your life – your journey into young adulthood, where you will face many challenges in a competitive global economy and a rapidly changing society. I am confident that each and every one of you is up to this challenge. Congratulations!

2007 Junior Prom

Homecoming Dance

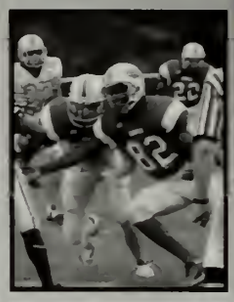
Homecoming Game

On October 27, 2007 The Southeastern Hawks welcomed their opponent Bristol-Plymouth Voc Tech high school.

Southeastern played an amazing game against Bristol - Plymouth. The varsity football team turned out victorious.

The team had a warm welcoming later on that night at their homecoming dance.

14-0 Win!



Lead the Way

Coach Ned Scaduto was there supporting his hawks, showing them the plays needed for a great game. Coach Scaduto led the team to another victory.

Cheer!

Your Southeastern Varsity and Junior Varsity cheerleading squad was there cheering their team on to victory!

GO HAWKS ! !

King & Queen

During the 2007 homecoming game Justin Leonard and Tasha Campbell Parker were crowned homecoming King and Queen. They celebrated their crowning later on that night at the homecoming dance, where the two of them had a royal welcoming. Congratulations Justin & Tasha!!!

Pep Rally

What a good Sport!!!!

Principal David Wheeler agreed to let the student with the most spirit cards smash pies in his face.

By the looks of it.....they had pretty good aim.

GO HAWKS!!

Southeastern's school mascot was there spreading the school spirit.

Southeastern's football team gathered together for the pep rally. The entire football team was getting pumped up for their big homecoming game against Bristol-Plymouth.

OPEN HOUSE

Southeastern's open house is a chance for the students and staff to present what the school has to offer. Southeastern takes great pride in showing our academic and vocational skills.

Our theme for this year at Southeastern is Did you know. The students designed every bulletin board in the school with the theme.

Ms. Barlow and Ms. Sullivan welcome the guests into Southeastern.

Kyle is a Junior at Southeastern. Kyle is enrolled in the collision repair shop. Kyle is showing off the skills he has learned here in the past three years.

The Yearbook Club

Members: A.J Voisine, Baldwin Dilone, Kim Dacey, Anthonea Teixeira, Britany Stephanson, Richard Tripaldi, Melanie Parrish, Leanne Talbot
Advisor: Nicole Nista

The Yearbook Club is responsible planning, organizing and designing the yearbook for Southeastern. The staff meets anywhere from one to three times a week. The members have deadlines that are critical to the delivery and distribution of the yearbooks to the students.

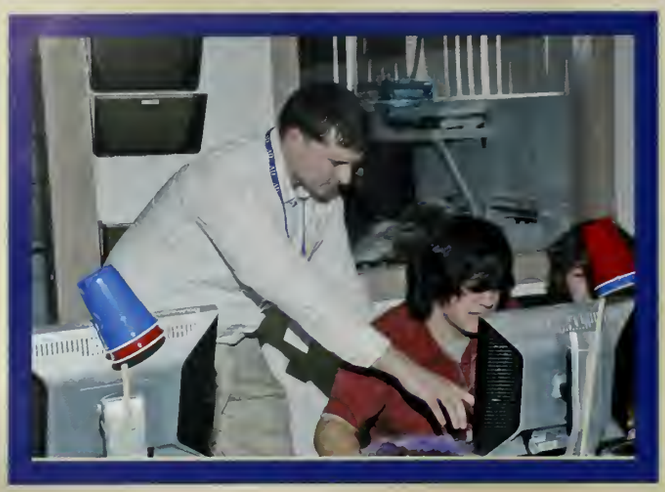
picture perfect!

Community Service Club

Members: Carol Livant, Amanda Nguyen, Keri Morales, Richardo Silva, Victoria Calixte, Ivan Monteiro, Jovenson Don, Monia Fernandez, and Devanna McMahon.
Advisor: Sharon Toomey

Helping Hands

The Community Service Club lends a helping hand to those in need. Donations are made to families that are unable to provide the basic needs in a home. Each year at Christmas a toy drive is set in place for students that are less fortunate. The Community Service Club is responsible for school dances, the senior auction, pictures with Santa, and other special events throughout the school.



Advertising & Design

Students will work with general design, layout, color theory, composition of color, vinyl lettering, and illustration with Desktop publisher, Adobe and Quark Programs. State-of-the -art techniques are applied with opaque water colors, photography, pen, coal and paint.

Upon graduation students are prepared to enter the job market within graphic and advertising art. Those continuing their education might pursue an associate's degree or bachelor's degree within Graphic Design, Visual Arts, Communication or Media Design, Architectural Design or Computer Information Systems.

Air Conditioning & Refrigeration

Students will learn the various applications that are used within maintained techniques of compressors,piping refrigerant lines, pressure gauges, electrical circuits, burners, and thermostats. Students also master the skills of installation and troubleshooting of heating and air conditioning/refrigeration units.

Graduates from this program will prepare to enter into the workforce within the air conditioning, heating or refrigeration areas either working for a company or employed themselves. Those continuing their education might pursue Small Business Management, Finances, and Mechanical Engineering

Automotive Technology

Students will perform the roles of automobile mechanics as they learn to inspect, maintain, and repair/trucks. They will also learn to perform routine services on numerous makes and models of automobile. Through a live industrial setting students will earn to diagnosis problems as they change belts, hoses, plugs, and brakes. Automotive student will learn to use a variety of tools such as pneumatic wrenches, grinding machines, welding and frame-cutting equipment.

Upon graduation students are prepared to enter into the automotive industry. Those continuing their education might pursue an associate's degree or bachelor's degree in Small Business Management, Entrepreneurship, Accounting, Finance and Mechanical Engineering.

Cabinetmaking

Students will learn the fundamentals of Carpentry while building from wood, plastics, and masonite. During this industrial setting modern joinery techniques are used to create everything from furniture, cabinets, and dressers using different gluing methods, stains, and finish carpentry. By use of hands on instruction, students learn fundamental skills and craftsmanship of wood finishing.

Upon graduating students are prepared to enter the work world within the construction industry, finish carpentry, or foundation construction. Those continuing their education might pursue an associate's degree or bachelor's degree in Small Business Managment, Entrepreneurship or Accounting.

Computer Aided Drafting.

Drafters produce, create and design detailed drawings of anything from office buildings to machinery, and assemble of products or parts, installation of equipment circuit boards or layouts of highways to pipelines. Today, most drafters use computer based programs or Computer Aided Drafting (CAD) which works with industrial standards within all areas of design.

Upon graduation students are prepared to enter into the areas of construction design, machinery design, structural design, or mechanical design. Those continuing their education might pursue and associate's degree or bachelor's degree in Visual Art, Graphic Design, Small Business Management, Mechanical Engineering, Machinery Engineering or Architectural Design.

Culinary Arts

Students learn to become chefs, cooks, or bakers by preparing meals using the basic tools of math, design, and creativity. The major components of working within the culinary arts areas include, baking, cooking, working within dining room setting, creating and changing menus,and preparing a variety of meals that temp everyone's pallet. Employment can be in many areas such as restaurants, diner, hotel, hospitals, or institutions that provide culinary services for a large number of people.

Upon graduating students are prepared to enter into or work at any type or restaurant. Those continuing their education might pursue and associate's degree or a bachelor's degree in Culinary Arts, Small Business Management, or Entrepreneurship.

Computer Information Technology

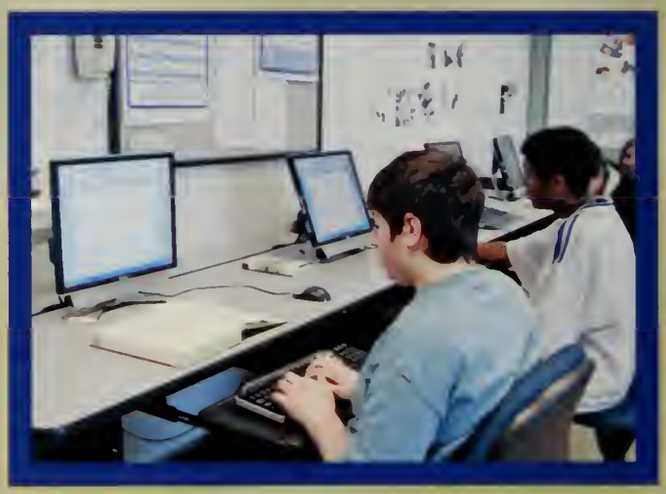
Students have the oppotunity to obtain software certifications while in high school and to earn college credit through the Tech Prep program. Southeastern has articulated agreements with several community colleges as well as four year colleges.

Upon graduation the students are prepared to enter employment in an office or any business and are able to provide the technical support and applications necessary. Those continuing their education might pursue an associate's degree or a bachelor's degree in Small Business Management, Computer Information Systems, Computer Science, Applied Computing, Graphic Arts, Visual Arts, Communications or Media Design.

Computer Office Technology

Students enrolled in Computer Technology program will receive hands-on training on state-of-the art equipment on a PC platform. They will learn various computer applications and hardware; including computer basics, office procedures, word processing, spreadsheets, database, electronic presentations, basic networking skills, Web design, computer graphics, animation, integration of applications and academics, scanner, digital cameras, and the Internet.

Upon graduation students are prepared to enter into an office and/or business, and are able to provide the technical support and applications of a modern office. Those continuing their education might pursue an associate's degree or a bachelor's degree in Small Business Management, Computer Information Systems, Computer Science, Applied Computing, Graphic Arts, Visual Arts, Communications or Media Design.



Construction Technology

Students learn numerous skills while constructing, installing, and repairing structures made of wood, wood products, and substitutes following local building codes. Student are exposed to and trained in OSHA industry standards. Because of the wide variety of work in the trade, some carpenters, specialize in specific types of work such as rough or finish carpentry. Some specialty areas include maintenance carpenters, acoustical carpenters and form builders.

Upon graduation students are prepared to enter the work world within the construction industry, finish carpentry, or foundation construction. Those continuing their education might pursue an associate's degree or a bachelor's degree in Architectural Design, Visual Design, Interior Design, Small Business Management, Entrepreneurship or Accounting.

Cosmetology

Cosmetology students learn to become innovative, professionally trained individuals that are in constant demand. Hairstylist and cosmetologists provide all types of services such as hairstyling, makeup application, coloring, curling, perming, scalp treatments, facials, and manicures. Upon completion of 1,000 hours of training, students are eligible to take licensing exams given by the Massachusetts State Board of Cosmetology.

Upon graduation students are prepared to enter the workplace as a licensed cosmetologist. Those continuing their education might pursue an associate's degree or a bachelor's degree in Small Business Management,Visual Design, Entrepreneurship, and Accounting.

Collision Repair and Technology

Collision repair students are able to create or replace damaged vehicle bodies and frames. Students learn to master straightening, refinishing, and painting the exterior of an automobile. They remove ruined pieces of the automobile with torches, cutting materials and welding machines. By using a state-of-the -art computer system they are able to recreate or rebuild the vehicle to its original structure.

Upon graduation students are prepared to enter the automotive repair industry. Those continuing their education might pursue a Small Business Management, Entrepreneurship, Mechanical Design or Mechanical Engineering, Accounting or Finance.

Electricity

Students install the main components of a circuit board, conduit piping, to protect wires, maintain electrical systems and install fiber optics or coaxial cable lines within a home or office. Student electricians learn to read blueprints to work on complex electrical devices and oscilloscopes to diagnosis problems taht may be hazardous. Students learn the Massachusetts and Federal wiring codes to work different schematics within wiring codes,maintenance, installation and job estimation.

Upon graduation students are prepared to enter an apprentice program to become a licensed electrician. Those continuing their education might pursue an associate's degree or a bachelor's degree in Mechanical Engineering, Small Business Managment, Architectural Design, Mathematics, Public Safety and Electrical Engineering.

Electronics

Electrical and electronics personnel provide important services within the areas of design, development and testing the newest technology within the systems of computers, timers, power supplies, electronic controls, digital logic circuitry, signal generators and other electronic devices that are in use on a daily basis.

Upon graduation students are prepared to enter the communications, electrical or electronics areas. Those continuing their education might pursue an associate's degree or a bachelor's degree in Chemistry, Physics, Computer Information Systems, Applied Computing, Communications and Media, Public Communications, Electronic Engineering, and Mechanical Engineering.

Environmental Science

Science technicians provide analysis of plants, water, blood, prepared cultures, soil samples, chemical solutions, food samples, geology samples, or different slides of specimens. Also, technicians create experiments to provide essential data to support any type of project, maintain lab instruments, repair and clean equipment.

Upon graduation students are prepared to enter the job market working within the a lab area performing experiments with food, drugs and environmental services. Those continuing their education might pursue and an associate's degree or a bachelor's degree in Agricultural Science, Food Science, Biology, Chemistry, Environmental Science, Geology, Nuclear Science, Marine Biology, Environmental Engineering, Mathematics, or Science Safety.

Graphic Communications

Graphic designers work within the areas of computerized typesetting, desktop Publisher, Adobe, PageMaker, Electronic prepress, camera and film operation, Plate making, offset printing, bindery operation, website design, layout design, imaging and print materials. They also study the formation of color, blueprint design and photography.

Upon graduation students are prepared to enter the workforce within the graphic design or bindery areas. Those continuing their education might pursue an associate's degree or a bachelor's degree in Visual Arts, Graphic Arts, Interior Design, Media Communications, Marketing, Small Business Management, Film Studies, Fine Arts, Public Relations, or Liberal Arts.

Health Services

Health Service Assistants are able to provide all types of personal care within the healthcare field. Healthcare assistants can work in every area of health care such as psychiatric aides and medical assistants in a doctor's office. Students may obtain state licensure as a Patient Care Assistant; CPR licensure, and Home health certification.

Upon graduation students are prepared to enter the medical profession after they receive their certified nurse's aid license. Those continuing their education might pursue and associate's degree or a bachelor's degree in Nursing, Health Studies, Community Health Services, Physical Therapy, Speech Therapy, Occupational Therapy, Psychology, Biology, Early Childhood Education, Elementary Education, Special Education, Dental Hygienist, Paramedic, EMT, and Pharmacology Technology.

Machine Technology

Students become skilled machinist by creating, designing, cutting, and shaping both metal and plastic. The use if programmed operators helps create molds, tools, and parts for everything that one might use in a daily basis. from a toothbrush to a carburetor for a car. Students learn how to innovate new parts that may assist with manufacturing needs.

Upon graduation the students are prepared to enter a machine shop to work with either plastics or metal. Those continuing their education might pursue an associate's degree or a bachelor's degree in Mechanical Design, Architectural Design, Machine Design, Mechanical Engineering, Accounting, Finance, Entrepreneurship and Computer Information.

Metal Fabrication

Students learn skills that involve creating different shapes for cars, motorcycles using metal, sheet metal and plastics processing. In a diverse field, students will experience different types of welding such as, oxygen-acetylene, arc, insert gas process and resistance welding are the tools that are needed to work within the metal fabrication field.

Upon graduation students are prepared to enter the workforce within metal or plastic fabrication. Those continuing their education might pursue an associate's degree or a bachelor's degree in Small Business Management, Architectural Design, Accounting, Finance, Entrepreneurship, or Engineering.

Plumbing

Plumbing students will learn the important skills in an industrious setting. Plumbing and pipe fitters install and repair pipe systems that carry water, waste, steam, air, or other fluids or gases. They also work on pipe systems that generate electricity and heat and cool buildings. Students learn to read and utilize blueprints.

Upon graduation students are prepared to enter an apprentice program to become licensed plumbers. Those continuing their education might pursue and associate's degree or a bachelor's degree in Small Business Managment. Architectural Design. Accounting. Finance. Entrepreneurship, or Engineering.

Retail & Marketing

The Retail and Marketing program seeks to provide students with the skills necessary for careers in marketing, merchandising, management, and entrepreneurship, while developing key skills needed to be successful in any business. Students in the program participate in projects and activities that stimulate a real business environment as well as operating a 2,000 square foot retail establishment.

Upon graduation students are prepared to enter the workforce. Those continuing their education might pursue an associate's degree or a bachelor's degree in Business Management, Small Business Managment,Accounting, Finance, Marketing, Public Relations Communications, Human Resources, Organization Communication, Media Business, Visual Design, Interior Design, Exterior Design, or Fashion Design.
